

Geography of Texas

What affects geography?

What makes up our environment?

What landforms do we find in Texas?

Rivers and Lakes

Weather in Texas

What types of climates does Texas have?

Texas Rainfall

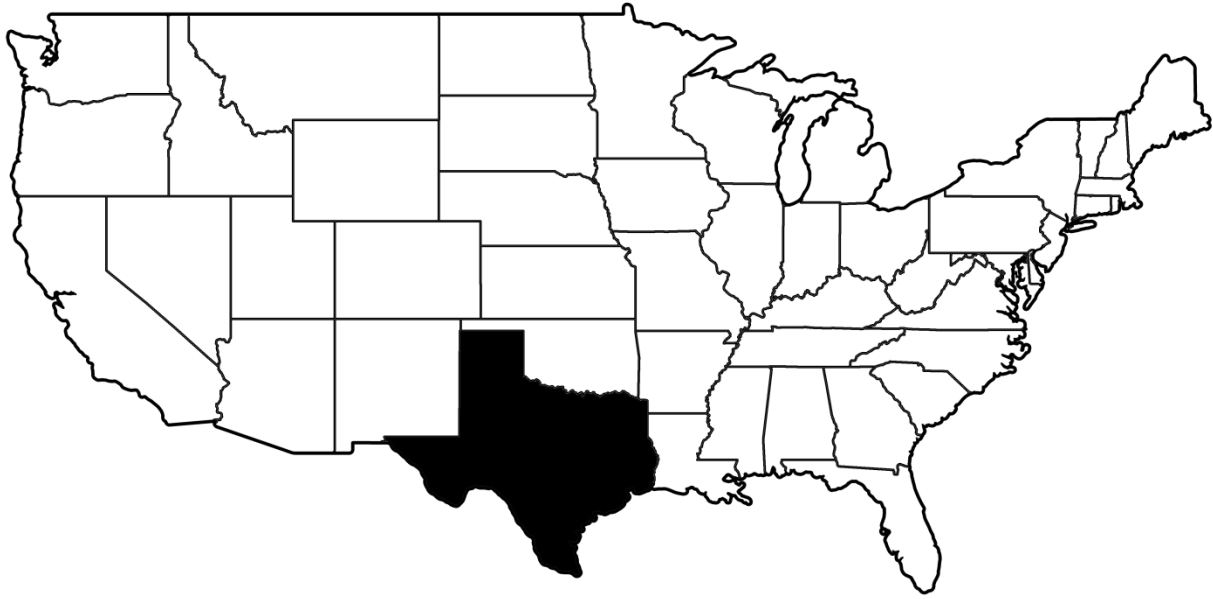

Growing Season

	Humid Subtropical Climate
	Subtropical Steppe Climate
	Subtropical Desert Climate
	Middle Latitude steppe climate

Vegetation

Regions of Texas

Draw out the major regions of the United States

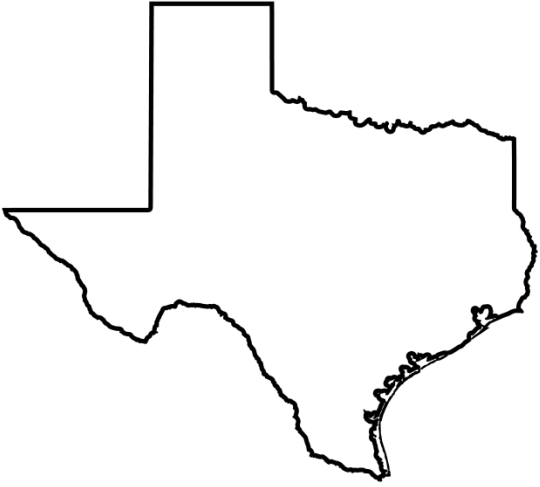

Major regions of the United States?

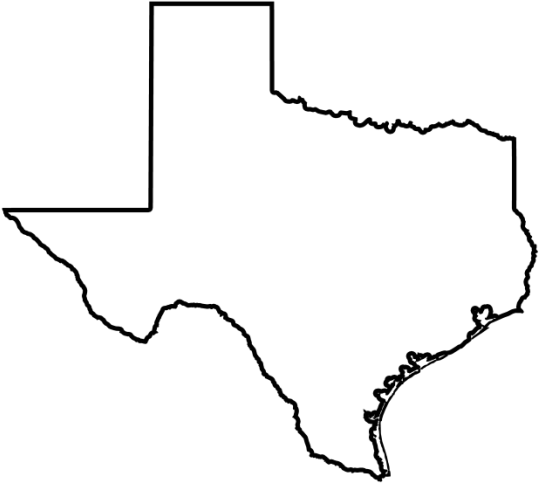

Which regions is Texas a part of?

For each region of Texas you find on the next few pages draw approximately where it is, and identify sub regions, major cities, landforms, and job opportunities

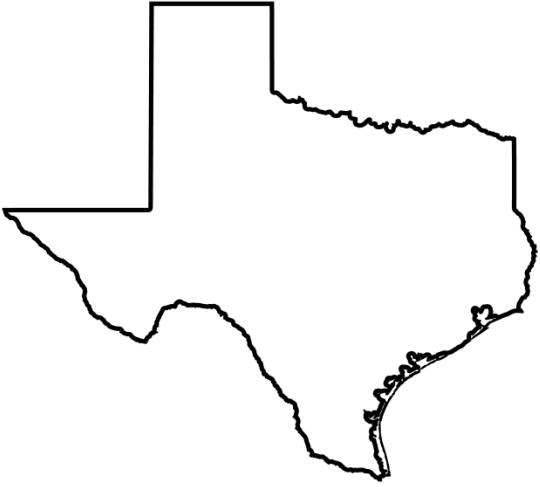

Coastal Plains

	Sub-regions:
Cities	
Climate	
Resources	
Jobs	

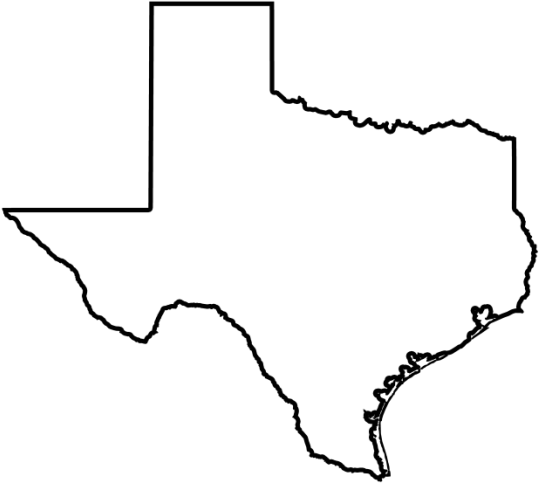

North Central Plains

	Sub-regions:
Cities	
Climate	
Resources	
Jobs	

Great Plains

	Sub-regions:
Cities	
Climate	
Resources	
Jobs	

Mountains and Basins

	Sub-regions:
Cities	
Climate	
Resources	
Jobs	

Texas Region Brochure

You are going to teach everyone else about your region of Texas. Use the textbook, books from the library, and the internet to create two brochures. The first brochure is to encourage people to visit your region, and the second brochure is to encourage people to move to your region.

What I expect in the visiting brochure:

- Attractions, cool museums, zoos, or theme parks, why would someone want to visit there
- Unique features of your region
- Suggestions of what to pack, what is the weather going to be like when the person visits

What I expect in the move to the area brochure:

- Major cities to move to
- Types of jobs you can get
- New job they might create based off of the local resources
- Good things about living in that area

Both brochures should have:

- Color pictures, either printed or hand drawn, no stick figures
- Spell-checked and correct grammar
- Typed, I will show you how to do this

Name _____

Date _____

Come Visit Brochure	Out of 10
Attractions	
Weather	
Sub-regions	
Pictures
